

Amendments to the Claims:

The following claims will replace all prior versions of the claims in this application (in the unlikely event that no claims follow herein, the previously pending claims will remain):

1. (Cancelled).
2. (Original) A compound according to ~~claim 1 wherein R¹ is of Formula A of~~ Formula (1)

Formula (1)

in which:

R¹ represents a group of Formula A:

Formula A

where:

c is from 2 to 6;

R³ represents H or optionally substituted C₁₋₈carbonyl derived group;

R⁴ and R⁵ independently represent an optional substituent;

R² represents an optionally substituted C₁₋₈carbonyl derived group;

X, Y and Z independently represent H or an optional substituent;

M represents H or a cation; and
m and n independently represent 0, 1 or 2.

3. (Currently amended) A compound according to ~~claim 1~~ of Formula (2):

in which:

M represents H or a cation;

Z is CONH₂, or CN or H; and

R¹ is optionally substituted C₂₋₈alkyl or a glycol group;

~~with the proviso that if the SO₃M group is in the 4 position of the benzene ring then either R¹ is other than ethyl or Z is other than H.~~

4. (Original) A composition comprising an organic solvent free from water or water and one or more water soluble organic solvent(s), and at least one compound of Formula (1):

Formula (1)

in which:

R^1 represents H, an optionally substituted C_{1-8} carbyl derived group, or a group of
 Formula A:

Formula A

where:

c is from 2 to 6;

R^3 represents H or optionally substituted C_{1-8} carbyl derived group;

R^4 and R^5 independently represent an optional substituent;

R^2 represents an optionally substituted C_{1-8} carbyl derived group;

X, Y and Z independently represent H or an optional substituent;

M represents H or a cation; and

m and n independently represent 0, 1 or 2.

5-7. (Cancelled).

8. (Previously presented) A composition according to claim 4 which comprises at least one further colorant.

9. (Cancelled).

10. (Previously presented) A composition according to claim 8, where the further colorant is a cyan dye of Formula (3)

Formula (3)

in which:

- T represents H or an optional substituent;
- V represents CO₂M, SO₃M, or PO₃M₂;
- M represents H or a cation;
- x and y independently represent 0 to 4; and
- x + y is from 3 to 5.

11. (Previously presented) A composition according to claim 8, where the further colorant is selected from C.I. Pigment Green 7 and C.I. Pigment Green 36.

12. (Cancelled).

13. (Original) A process for preparing a patterned, cross-linked, polymer, film coating on a substrate comprising the steps of

- (a) applying to the substrate simultaneously and/or sequentially in any order:
 - (i) one or more cross linkable polymer precursor(s);
 - (ii) optionally one or more additional cross-linker(s) capable of cross-linking the precursor(s) for the polymer(s); and
 - (iii) one or more compound(s) of Formula (1) as described in claim 4 optionally with one or more colorant(s);
- (b) optionally patterning one or more non cross-linked film(s) of component (i); component (ii); component (iii) and/or mixture(s) thereof, optionally before application of further components; and
- (c) initiating cross-linking the mixture of components (i), (ii) in situ, to form an optionally patterned, cross-linked polymeric film coating on the substrate.

14. (Original) A process according to claim 13, in which the process comprises a printing process.

15. (Original) A process according to claim 14, in which the printing process is an ink-jet printing process.

16. (Original) A process according to claim 14, in which the printing process comprises a photolithographic process.

17. (Original) A process according to claim 15, in which the polymer precursor(s) comprise water dissipatable polymer precursor(s).

18. (Previously presented) A substrate obtainable by a process as claimed in claim 13.

19. (Original) A substrate according to claim 19, which comprises: a colour filter comprising a coloured, cross-linked, polymer coating on a transparent substrate; and/or a transparent, coloured, cross-linked, polymer coating on a substrate.

20-21. (Cancelled).

22. (Previously presented) A display which comprises a substrate according to claim 18.

23-24. (Cancelled).

25. (Previously presented) A cartridge suitable for use in an ink jet printer containing an ink according to claim 4.

26. (Previously presented) A paper, overhead projector slide, textile or colour filter printed with a composition according to claim 4.

27. (Presently amended) A colour filter comprising red, green and blue filter elements, or yellow, magenta and cyan filter elements, ~~characterised in that~~ wherein the filter carries a compounds of Formula (1) as defined in claim 4.
